

## PATIENT HEALTH RECORD

North Georgia Diabetes and Endocrinology now provides patients with electronic access to their health records through our Patient Health Record site. This site allows safe, secure on-line access to lab results and ability to send messages to your provider. When you request access, a member of our staff will provide the patient/legal guardian with the website address, a user name and a temporary password. The first time you log in, you will be prompted to change your password. This will be the patient's responsibility to check for lab results.

Get started today by checking the appropriate box and signing below. We will be happy to answer any questions you may have.

- Yes, I would like access to the secure Patient-Portal  
 No, I do not want access at this time

If you have not heard from our office by phone or the patient portal within a week after your office visit. Please call the office at 770-886-3842 or 678-735-5300.
